

# CO<sub>2</sub>GeoNet Open Forum

San Servolo Island, Venice, 19-22 September 2022

## Accelerating CCS

Transitioning from millions of tonnes stored to billions of tonnes stored

CO<sub>2</sub>GeoNet is delighted to invite you to the upcoming Open Forum, our first in-person event since 2019. This will be our 15<sup>th</sup> Open Forum and this anniversary demonstrates the success of this event in drawing together high-level speakers and experts in CO<sub>2</sub> geological storage.

**Save the date to  
join us in Venice on  
19-22 September  
2022!**

### 20 September Open Forum day 1

- Setting the scene
- Bankable storage capacity
- Developing hubs and clusters in Europe
- New and ongoing CCS projects

### 21 September Open Forum day 2

- Can utilisation accelerate CO<sub>2</sub> storage?
- Delivering clean energy with hydrogen and CCS
- Upscaling CO<sub>2</sub> storage

### Pre- and Post-Open Forum workshops

- 19 September Industrial stakeholder workshop
- 22 September CO<sub>2</sub> storage research networking event

### About

CO<sub>2</sub>GeoNet is the European scientific body on CO<sub>2</sub> geological storage, bringing together 27 research institutes from 21 European countries. The event offers a unique opportunity to meet and interact directly with Europe's largest group of researchers on CO<sub>2</sub> geological storage.
